

LAXMAN MAHTO

Jaipur, India • +91 6287669883 • laxmanmahto.cse@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Third-year Computer Science student building full-stack systems (Next.js, React, Node.js) and applied deep-learning models for computer vision (PyTorch, CNNs, CBAM). Focused on shipping practical, production-grade software and turning research into measurable results.

EDUCATION

University of Engineering and Management, Jaipur <i>B.Tech, Computer Science and Engineering CGPA: 8.0 / 10 (through Semester 6)</i>	2024 – 2028
Shardha Vidhya Mandir, Jaipur <i>Class XII</i>	2022 – 2024

TECHNICAL SKILLS

Languages Java, Python, JavaScript, TypeScript, SQL
Frontend Next.js, React.js, HTML5, CSS3, Tailwind CSS
Backend Node.js, Express.js, REST APIs, Prisma
Databases PostgreSQL, MongoDB, Supabase, Firebase
AI / ML PyTorch, Deep Learning, CNNs, CBAM, LIME, Computer Vision, Scikit-learn, Pandas, NumPy
Tools Git, GitHub, Vercel, VS Code, Power BI

EXPERIENCE

Machine Learning Intern — InAmigos Foundation (Remote)	Aug 2026
Built data preprocessing and model-evaluation pipelines for applied ML problem sets, working with a remote team to iterate on model performance.	
Owner-Operator — Family-run Canteen, UEM Jaipur	2012 – Present
Run daily operations, procurement, inventory, and finances for a canteen serving 1,500+ students and faculty total; hire and coordinate seasonal staff during peak periods.	

PROJECTS

Knee OA Severity Classifier — Research Project (3-person team)	2026
<i>Faculty Advisor: Prof. Dr. Tapas Si Python, PyTorch, CNNs, CBAM, ResNet50, LIME</i> - Co-developed a five-class Kellgren-Lawrence knee osteoarthritis classifier on 8,260 radiographs, combining a custom multi-scale CBAM-residual CNN with an independent ResNet50-CBAM branch under imbalance-aware training (inverse-frequency sampling, focal loss, label smoothing). - Built a probability-averaged cross-architecture ensemble (3 Hybrid + 5 ResNet50-CBAM folds) with horizontal-flip TTA, reaching 67.03% accuracy, 69.17% macro-F1, 0.8432 QWK, and 0.3641 MAE — 97.22% of predictions exact or within one severity grade. - Ran class-wise/ordinal error analysis and built LIME + CBAM interpretability views; co-authoring an IEEE conference paper on the framework, currently in preparation.	
InternPulse (Live Demo)	2026
<i>Next.js, TypeScript, Prisma, Supabase, Tailwind CSS, Nodemailer</i> - Rebuilt and extended a full-stack internship-management platform with secure dual-role dashboards for institutions and corporate HR to track and verify student internships. - Added an automated email-verification workflow using signed, time-limited links so HR can confirm attendance without manual paperwork. - Built a certificate-generation engine that issues print-ready, verifiable proof-of-work credentials on internship completion.	
ClassGuard (Live Demo)	2026
<i>React, Vite, Tailwind CSS, Supabase, OpenCV, Scikit-learn</i> - Built a real-time exam-monitoring platform that flags tab switches, split-screen use, and app-switching via the browser Visibility/Fullscreen APIs, with a live teacher dashboard on Supabase Realtime. - Implemented Row Level Security and secured file storage for photo/PDF question uploads; set up CI/CD via GitHub Actions for automated Vercel deployments.	

POSITIONS OF RESPONSIBILITY

UEM Jaipur ACM Student Chapter & Pradyog Community	Aug 2025 – Aug 2026
- Tech Core Team Member, ACM Student Chapter — contributed to web development initiatives and technical activities. - Active member of Pradyog Community, the college's technical community.	

ACHIEVEMENTS & CERTIFICATIONS

- Ranked 21st among 1,000+ participants in the Algo University Tree Coding Competition.
- Microsoft Power BI — PL-300 Exam Preparation and Practice, Coursera.
- Finalist, Badminton (UEMJ Sports Fest), 2025.
